## SKILLS

- Java (Spring Boot/Maven), Python, JavaScript, REST API, HTML, CSS, SQL, JSON, XML
- Microsoft Azure (Function Apps, Integration Bus), SharePoint, DB Query, Jira

## WORK EXPERIENCE

**Ontario Securities Commission**: *Information Services Summer Student*          May 2024 – August 2024

- Collaborated with Technical Leads to update the Application Services SharePoint site and built integration components using Azure Function Apps and Integration Bus, which allowed internal systems to exchange information with national systems (SEDAR+).
- Actively contributed to the Enterprise Integration team, consistently delivered tasks on time, while fostering effective communication and teamwork across departments.
- Proactively used Microsoft Learn to strengthen knowledge in SharePoint development and Azure integration services, while expanding expertise in Spring Boot, Maven, and REST APIs to address technical gaps.

**City of Toronto**: *Swimming Instructor / Lifeguard*          July 2022 – August 2024

- Utilized strong critical thinking skills to assess and respond quickly to emergency situations, coordinating with other lifeguards/bystanders to make life-saving decisions and ensure the well-being of all patrons.
- Provided individualized and collaborative swimming techniques, adapting teaching methods to fit varying skill levels and learning styles, while addressing challenges such as fear of water through tailored solutions.
- Worked closely with fellow lifeguards and management to ensure pool safety standards were consistently met.

**Ontario Provincial Parliament**: *Student Page*          March 2019 – April 2019

- Assisted MPPs and legislative staff with daily tasks, such as delivering official documents and messages during sessions, while maintaining clear communication to ensure smooth parliamentary operations.
- Gained firsthand experience with Ontario's legislative process by observing debates, reviewing bills, and conducting research to support MPPs, enhancing knowledge of provincial government operations and procedures.

## EDUCATION

**University of Western Ontario** || London, Ontario          September 2023 – Present
*B. E. Software Engineering*

    **Relevant Coursework**: Data Structures and Algorithms, Object-Oriented Programming, Digital Logic Systems, Scripting Programming Language, Software Design, Software Construction, Accounting & Business ANA
